# Finishes

Wood Natural or Black Pine

# Materials

ITF 3 Solid pine wood

ITF Coffee Solid pine wood with polished stainless steel hardware detailing on edges

PLEASE NOTE - Natural wood product will react differently depending on the environment they are placed in. Part of the allure of these products is the natural finish and look they give. Splits and cracks form this look and can grow bigger over time as the product dries out further in warmer, dry conditions that you find in offices. Cracks that are already there will get bigger, and some new ones may develop. This is normal and within the nature of the product.

Warranty

Workstories Ltd offers a 5-year warranty on our United Strangers range.

**Please note the specificity of solid pine in the Finishes section.** Splits and cracks are within the nature of this product and will not be covered by the warranty.

This applies only if products have been used within and by standard office conditions. Wear and tear must be expected from normal use and are not covered by the warranty.

General Care

WOOD

The fine finish applied during manufacture is a protective lacquer resistant to moderate heat and spillages of some beverages, but not alcohol. All spillages should be wiped off immediately with a slightly damp cloth to avoid any permanent staining.

For general routine cleaning, simply dust and wipe your wooden surfaces with a soft, damp, lint-free cloth. Dry immediately using a soft and clean cloth. Always wipe surfaces in the direction of the wood grain.

METAL PARTS

Clean with lukewarm soapy water and rinse off with clean water. Wipe the entire surface with a clean, dry cloth.

Environmental Practices

Workstories is dedicated to being environmentally conscious. We strive to ensure the continued availability of natural resources for current and future generations, and as part of our mission, we recognise the responsibility to protect human health and the environment, and to continually improve our operations.

To carry out this commitment, it is our policy to ensure all our factories:

Meet or exceed the requirements of all environmental laws and regulations applicable to our operations.

Limit our impact on the environment to the extent practicable and work to reduce recognised environmental risks to our employees and the communities in which we operate by employing safe technologies and operating procedures.

Continually assess our environmental programs and monitor our environmental performance.

Have operating policies and programs in place to implement our Environmental Quality Policy.
