BESTUHL GENERAL CARE

bestuhl

Ergonomic, efficient and effective, Bestuhl offers a range of highly engineered task and meeting chairs. Beautifully designed and beautifully functional, these are chairs for spaces where work gets done.

general care

COVER FABRIC

—

To care for cover fabrics, simply Hoover dust and lint regularly using an upholstery nozzle. Any fresh stains can typically be removed by wiping immediately with an absorbent, lint-free sponge or cloth. Start from the outer edge of the stain and work inwards to avoid creating a halo effect, using normal household distilled water to prevent limescale residue.

PLASTIC

—

Please use a soft, damp, non-abrasive cloth for cleaning plastic. Subsequent gentle drying is recommended. For stain removal, we recommend using a mild commercially available cleaner. Never use abrasive cleaning agents such as powders or pastes, or aggressive all-purpose cleaners like alcohol, as these may damage the surface. We recommend that you avoid exposing your chair to the sun for any longer than is necessary.

ALUMINIUM

—

For quick removal of contaminants on polished high-shine, matte chrome and aluminium surfaces, apply a glass cleaner with a clean, soft cloth and subsequently wipe the surface dry with a soft cloth. Always clean metal surfaces gently and without scrubbing so that the surface is not scratched. Never use cleaners containing granular substances, acetic acid or citric acid.

To minimise the risk of damage please take some simple precautions:

Avoid exposure to excessive heat from a fire, radiator or local high temperature light sources.

Before using any cleaning product, you should test it on an inconspicuous spot. Please follow the cleaning product manufacturer's instructions and contact a professional cleaning company in case of stubborn dirt or stains.

guarantee

Workstories Ltd offers a five year warranty on the Bestuhl range, unless otherwise stated. This applies when the product has been used for the purpose intended, and in line with the product use guidelines.

Wear and tear must be expected from normal use and are not covered by the warranty.

Workstories Ltd reserves the right to refuse replacement or repair if we feel that the product has been misused or has been accidentally damaged by another party.

Workstories Ltd also reserves the right to attempt to repair any damaged or faulty products before a decision is made to replace them. In this case, we shall not be liable for any loss occurred by the distributor or customer during this period.

Workstories Ltd will not be liable whatsoever for any consequential damage, loss or other expenses whether arising out of contact, negligence or otherwise. Any alterations to our products in any manner will automatically nullify any guarantees offered by Workstories Ltd.

environmental practices

Workstories is dedicated to being environmentally conscious. We strive to ensure the continued availability of natural resources for current and future generations, and as part of our mission, we recognise the responsibility to protect human health, the environment, and natural resources, and to continually strive to improve the environmental quality of our operations.

To carry out this commitment, it is our policy to ensure all our factories:

Meet or exceed the requirements of all environmental laws and regulations applicable to our operations.

Limit our impact on the environment to the extent practicable and work to reduce recognised environmental risks to our employees and the communities in which we operate by employing safe technologies and operating procedures.

Continually assess our environmental programs and monitor our environmental performance.

Have operating policies and programs in place to implement our Environmental Quality Policy.

Albion range is fully manufactured in the UK to in a newly constructed purpose built facility, which houses some of the most up to date, energy efficient fabrication equipment available. The factory subscribes to the principles of lean manufacturing, and as a consequence produces very low quantities of waste materials. Any waste materials that are produced are sent for recycling.

At United Strangers the care for sustainability and environment is strong, the team wants to always improve involvement into this cause and show the world we can accomplish remarkable and modern things with recycled material, producing unique handcrafted pieces. Finding recycled material is not easy but it is why US is different and runs several ethical sourcing programs around the globe.

Bestuhl task chairs are 80% manufactured in a state of the art facility. All other materials are sourced locally from factories nearby. Once in the UK stock is transported from the docks to our central London warehouse. This means that, in stark contrast to European manufacture, efficient production is underpinned with sustainable sourcing of materials.

With a similar principle applying to our m.a.d. and Sourcetec brands, Workstories guarantees limited carbon footprint for our products. Workstories is a full member of FIRA, and is in the process of achieving ISO9001 and ISO14001 certifications for 2019.
