Seat – Camira Blazer Silcoates

Internal – Matching MFC (inside of door, flooring, table and roof) and grey felt

Handle – Black metal

Dimensions

SINGLE - Seated
W. 1200mm
D: 1000mm
H: 2180mm
Table (H): 740mm
Seat (H): 510mm

DOUBLE - Seated
W. 2020mm
D: 1000mm
H: 2180mm
Table (H): 760mm
Seat (H): 530mm

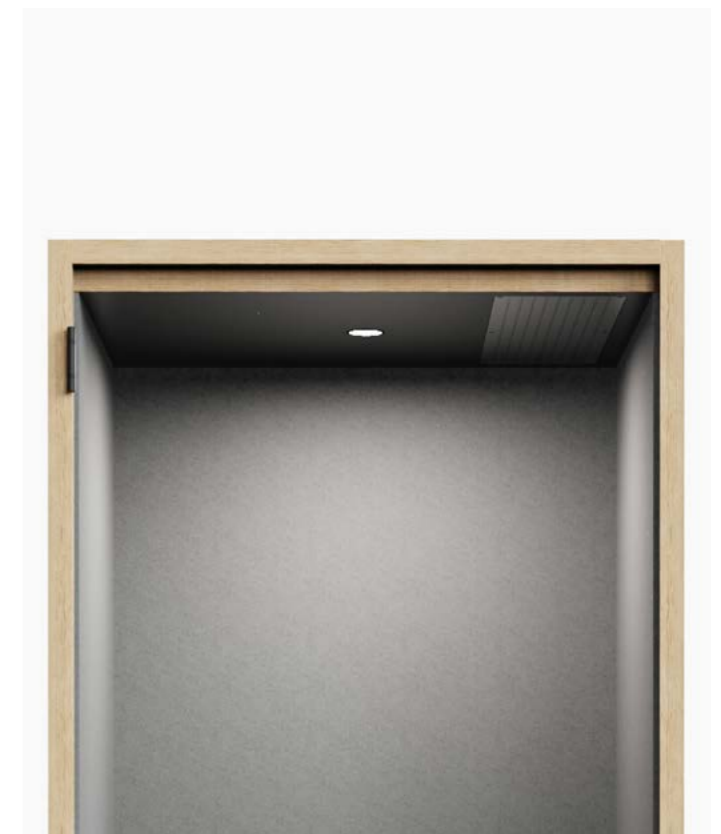

SINGLE - Standing
W. 1000mm
D: 1000mm
H: 2180mm
Table (H): 1091mm

Features

- Standing or Seated including ION Duo module (UK power and dual A&C fast charge)
- Light weight table - electrics and mounting brackets hidden by a PET cover
- Lever action handle
- Lighting - slim-line, diffused, centrally located unit
- Ventilation system

FEATURES

Technical details

POWER OUTLET

– The power socks are located in the surface of the desk. Providing mains plug, USB A, USB C, and wireless charging capabilities.

Input: 230–250V
USB Type A: 2.4A
USB Type C: 3A
USB shared: 4.2A
Wireless: 10W
Max current: 13A
Individual thermal reset: 3.15A

VENTILATION

– 2 X 120mm Fans located in the ceiling of the booth.

1800 RPM
Airflow 62.7 CFM
Maximum noise of 28.4 dBA
Working time of 35,000 hours at 25 degrees

LIGHTING

– The LED light is in the ceiling and turns on/off with motion sensing technology.

Power Supply: 12 V
Working Time: 30,000
Colour Temperature: Natural White 4000-4500 K
Lumen Output: 185 lm
IP Rating: IP20

DOOR CONSTRUCTION

– The glass has been designed to be cut without the radiuses. The radius of the window is then created through the door structure and trim. The glass is surrounded with a rubber seal. The seal is placed into the cut-outs and then has the metal trim screwed down around it to compress the rubber, providing a tightly sealed window. This allow easy replacement if required.

ASSEMBLY

– Workstories Booth is quickly assembled by two people with minimal tooling required. The simple and efficient design means that it can be taken down and moved as often as required without any loss of performance.

Workstories Booth is made up of sturdy individual panels that give it strength and stability whilst the adjustable feet mean it can cope with most surfaces without issue.

Warranty

Workstories Ltd offers a 5-year warranty on our Atelier range, and 1-year warranty on electrical items.

This applies only if products have been used within and by standard office conditions. Wear and tear must be expected from normal use and are not covered by the warranty. Manufacturer's warranty applies to all fabrics.

General Care**CLEANING & CARE**

–
The booth should be regularly cleaned with a soft, dry cloth. If required, a damp, soft cloth may be used. Do not use abrasive, ammonia, bleach, spirit or oil-based cleaners, including D10 sanitiser. Periodically check and tighten hardware as necessary.

EXTERIOR: MFC

–
All MFC products can easily be cleaned with a damp cloth and a mild soap, or detergent if necessary, and buffed dry with a clean cloth. Never use abrasive powders or scouring pads to clean stubborn marks. In extreme circumstances, a mild alcohol product can be used, however this must be followed by a damp cloth soaked in water, ensuring no alcohol residue is present afterwards.

FELT

–
Vacuum regularly to prevent build-up of dust and dirt on the felt surface. Clean spills and stains quickly by mopping up the excess liquid using kitchen roll or a damp cloth.

ELECTRICS

–
Ensure no liquid is allowed to access the power modules. Should this happen, isolate from the electrical supply immediately and consult a qualified electrician.
Apart from replacing or resetting fuses, Sourcetec products are manufactured to be maintenance free. For periodic cleaning, disconnect the unit from the power source and use a soft damp cloth, immediately after dry the unit with a soft dry cloth. Do not use harsh chemical solvents or detergents.

All Sourcetec units are tested before they leave the factory, any suspected damage or manufacturing defects need to be raised with Sourcetec immediately for further investigation.

SAFETY WARNINGS

–
Furniture can be dangerous if improperly assembled or installed. Assembly should be completed by a qualified person following the provided assembly instructions.
With assistance of another person, always lift, do not drag large or heavy furniture into position.

Environmental Practices

Workstories is dedicated to being environmentally conscious. We strive to ensure the continued availability of natural resources for current and future generations, and as part of our mission, we recognise the responsibility to protect human health, the environment, and natural resources, and to continually strive to improve the environmental quality of our operations.

To carry out this commitment, it is our policy to ensure all our factories:

Meet or exceed the requirements of all environmental laws and regulations applicable to our operations.

Limit our impact on the environment to the extent practicable and work to reduce recognised environmental risks to our employees and the communities in which we operate by employing safe technologies and operating procedures.

Continually assess our environmental programs and monitor our environmental performance.

Have operating policies and programs in place to implement our Environmental Quality Policy.
