M1 Chair

Designed by **Bestuhl**
exclusively for Workstories

The M1 chair offers a refined balance of comfort, support, and considered design, adapting intuitively to the user for a natural seating experience.

With its graceful, one-piece silhouette, the M1 blends fits into any contemporary workspace, striking the perfect balance between performance and presence.

01
Double adjustable lumbar support

The weight-responsive tilt automatically adjusts the tilt resistance based on the user's weight. The tilting angle can be adjusted in 4-stage, allowing you to set it according to your work mode.

02
Auto-Adjusting Tilting Mechanism

The weight-responsive tilt automatically adjusts the tilt resistance based on the user's weight. The tilting angle can be adjusted in 4-stage, allowing you to set it according to your work mode.

03
Seat Depth Adjustment

The seat depth can be adjusted through the button at the lower right corner (50 mm)

04
Adjustable armrest 2D

The backrest pad can be moved vertically to adjust the height, while the lumbar levers on both sides allow for 3-stage depth adjustment in both left and right directions.

* Height Adjustment (40 mm)/ Depth Adjustment (10 mm)

05
Height adjustable headrest (self-tension)

The height is adjustable in accordance with the user's body, and it gives the comfortable seating-feeling to the users through the self-tension feature.

CERTIFICATES

The collection is ANSI/BIFMA X5.1 certified. Materials meet or exceed ANSI/BIFMA M7.1 VOC emissions standards for office furniture.

Bestuhl guarantees limited carbon footprint for our products. Bestuhl is a full member of FIRA, and holds ISO9001 and ISO14001 certifications.

SAFETY WARNINGS

—
Furniture can be dangerous if improperly assembled or installed. Assembly should be completed by a qualified person following the provided assembly instructions.

Do not tilt, or lean back on the chair legs, as this could result in a fall. Do not stand on furniture, as it could cause a fall. With assistance of another person, always lift, do not drag large or heavy furniture into position.

WARRANTY

Bestuhl Ltd offers a 5-year warranty. This applies only if products have been used within and by standard office conditions. Wear and tear must be expected from normal use and are not covered by the warranty.

GENERAL CARE

CLEANING & CARE

—
The furniture should be regularly cleaned with a soft, dry cloth in the direction of the wood grain. If required, a damp, soft cloth may be used. Do not use abrasive, ammonia, bleach, spirit or oil-based cleaners, including D10 sanitiser. Periodically check and tighten hardware as necessary. Any lost bumpers or feet should be replaced as soon as possible to avoid damage to the furniture or the floor surface.

UPHOLSTERY

—
Upholstered furniture gets dusty and this can dull the colours and reduce the life of fabrics. Lightly vacuum or brush regularly but never use a stiff brush as this could damage the fibres. If you spill something on the upholstery, wipe excess liquid up immediately with a clean absorbent cloth. Then follow the fabric manufacturers cleaning instructions.

POWDER COATED METAL PARTS

—
Clean with lukewarm soapy water and rinse off with clean water. Wipe the entire surface with a clean, dry cloth.

ENVIRONMENTAL PRACTICES

Bestuhl is dedicated to being environmentally conscious. We strive to ensure the continued availability of natural resources for current and future generations, and as part of our mission, we recognise the responsibility to protect human health, the environment, and natural resources, and to continually strive to improve the environmental quality of our operations.

To carry out this commitment, it is our policy to ensure all our factories:

Meet or exceed the requirements of all environmental laws and regulations applicable to our operations.

Limit our impact on the environment to the extent practicable and work to reduce recognised environmental risks to our employees and the communities in which we operate by employing safe technologies and operating procedures.

Continually assess our environmental programs and monitor our environmental performance.

Have operating policies and programs in place to implement our Environmental Quality Policy.
